Carbide Shank for Modular Mill

All sizes are center-through products.
Specifications for the products listed in this catalog are subject to change without notice due to replacement or modification.

Stocked items. Commercial milling chucks or shrink-fit holders can be used.

From 20th Feb. 2018 “Z” is added to the end of item code.

For 1, since the cutter diameter is below the shank diameter, interference occurs at the shank.

For the Ø40 size, it is recommended that the protrusion length be 200mm or less.

Printed using vegetable oil ink.
